MELBOURNE

DOORS AND MORE

Melbourne Doors and More is a family-owned business delivering excellence in garage door solutions since 1970. Our team of experienced technical specialists design and build custom luxury garage doors that blend sophistication, reliability, and affordability—all manufactured locally in Melbourne.

Each door is engineered and assembled in our dedicated facility, with a focus on quality and precision at every stage.

DISCOVER THE BENEFITS OF A CUSTOM GARAGE DOOR

Elevate Your Space

Custom garage doors bring modern **elegance** to any property, enhancing curb appeal with tailored **design** and a refined finish.

Built for Durability

Manufactured from **premium** materials

Personalised Style

Choose from a wide selection of colors, finishes, and designs to create a garage door that **perfectly complements** your home's architecture and reflects your unique taste.

Versatile Material Options

We also manufacture high-quality acrylic, Alucobond, and cladding doors, offering modern solutions to suit a range of design preferences.

Transform your home's exterior with a custom garage door that combines timeless **elegance**, exceptional **durability**, and personalised **style**.

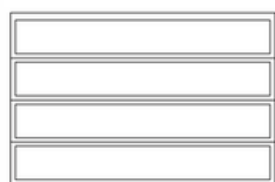

ACRYLIC

Custom acrylic garage doors offer excellent light transmission while maintaining privacy, making them ideal for bright, modern spaces. Their impact-resistant, lightweight construction ensures easy operation and long-term durability. Designed to withstand UV exposure and harsh weather, these doors feature 6mm thick inserts and powder-coated frames for a premium, lasting finish.

Eight equal sections, white matte frame with white matte inserts

STYLE:

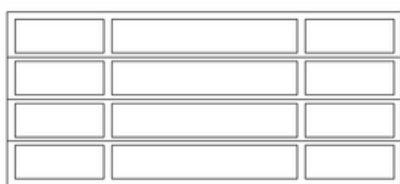

1 SECTION

2 EQUAL SECTIONS

3 EQUAL SECTIONS

QUARTER/HALF/QUARTER

4 EQUAL SECTIONS

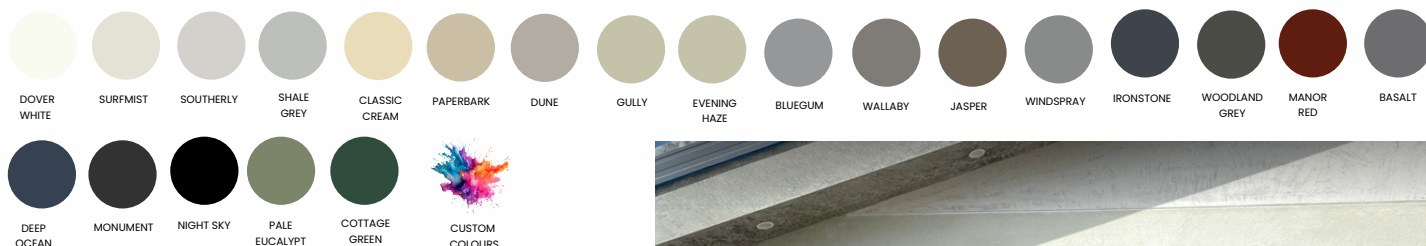

5 EQUAL SECTIONS

The number of panels is determined by the door height:

- For openings up to 2440mm high, doors are made with 4 panels.
- For openings above 2450mm, doors feature 5 panels.

At Melbourne Doors, we custom manufacture each acrylic door to your specifications, ensuring a unique look and reliable quality for your home.

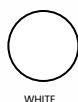

FRAME COLOUR:

All colours are available in **Matte** and **Shiny** finishes.

FRAME COLOUR:

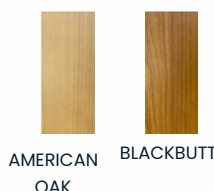

All **colours** are available in **Matte** and **Shiny** finishes.

PANEL COLOUR:

Additional finishes: **Matte**, **Shiny** and a variety of other **finishes** available.

TIMBERLOOK FINISHES:

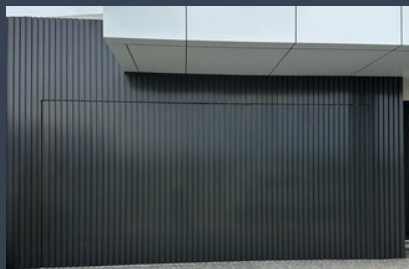

AMERICAN OAK BLACKBUTT

CLADDING

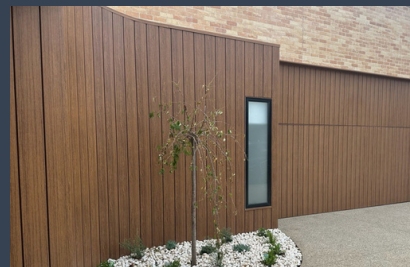

CLADDING TYPE:

ALUMINIUM CASTELLATED

ALUMINIUM BATTEN

ALUMINIUM V TYPE

FLUSH MOUNT:

Flush Mount garage doors feature cladding that blends with exterior materials to create a seamless, cohesive facade.

Cladding garage door has a sleek panel finish and a modern design without cladding around it.

STYLE:

Sectional

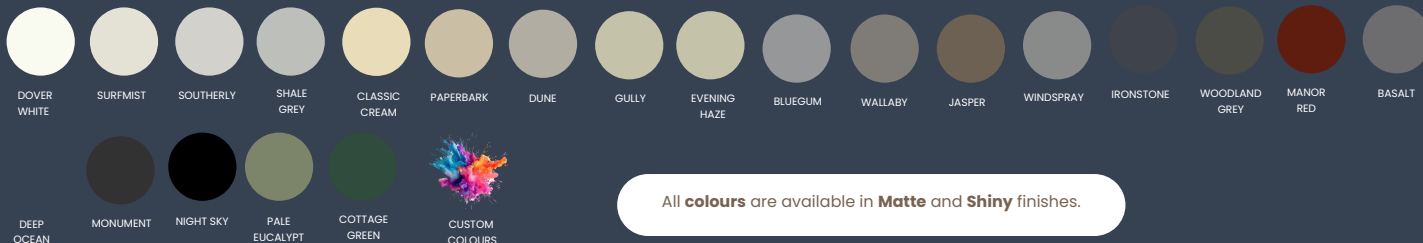

Ideal for all types of garages, combining functionality and style with a space-saving vertical opening.

Tilt

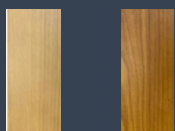

Sleek and minimalist, perfect for modern designs with available front clearance.

COLOR OPTIONS:

All colours are available in **Matte** and **Shiny** finishes.

TIMBERLOOK :

AMERICAN OAK, BLACKBUTT

Cladding can be installed on the **door only**, on the door and surrounding wall for a **flushmount** look, or we can simply **supply the frame** for your own installation.

Cladding

FLUSHMOUNT

A flush mount garage door is designed so that the surface of the door **aligns perfectly with the surrounding wall** or facade, creating a **smooth, continuous appearance**. This seamless integration allows the garage door to **blend** in with the building's exterior.

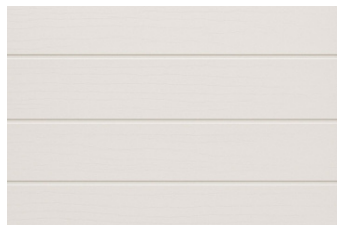

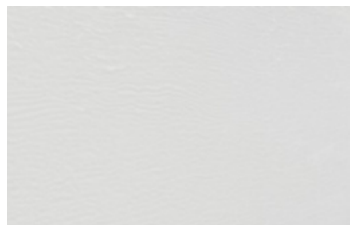

In this design, the door is finished with aluminium cladding—a lightweight, durable, and weather-resistant material commonly used in contemporary architecture.

STANDARD

STYLE:

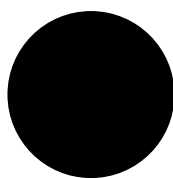

Improvement options:

- Safety beams
- Powder coated tracks
- Additional remote control

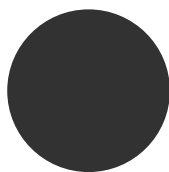

COLOUR OPTIONS:

SURFMIST

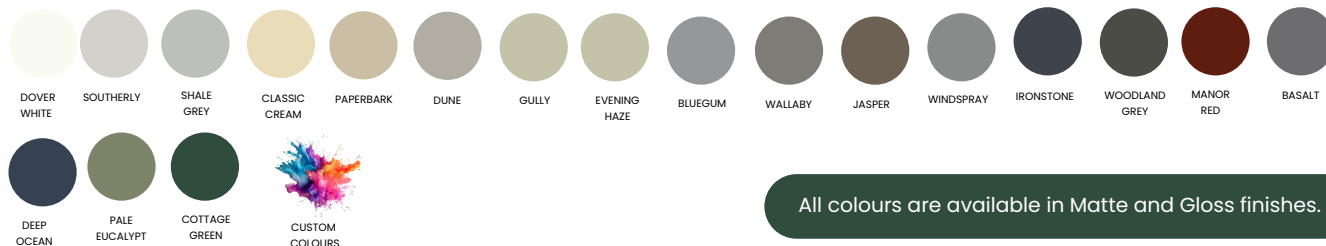

NIGHT SKY

MONUMENT

Best-selling colours

All colours are available in Matte and Gloss finishes.

ROLLER

Roller garage doors save space by rolling up vertically, making them ideal for tight areas. They offer strong security, easy automation, and low maintenance.

COLOR OPTIONS:

All colours are available in **Matte** and **Shiny** finishes.

Includes two
remotes and
one wall
remote

COMMERCIAL

Our commercial garage doors are available with different perforation levels to meet your needs for ventilation, visibility, and security.

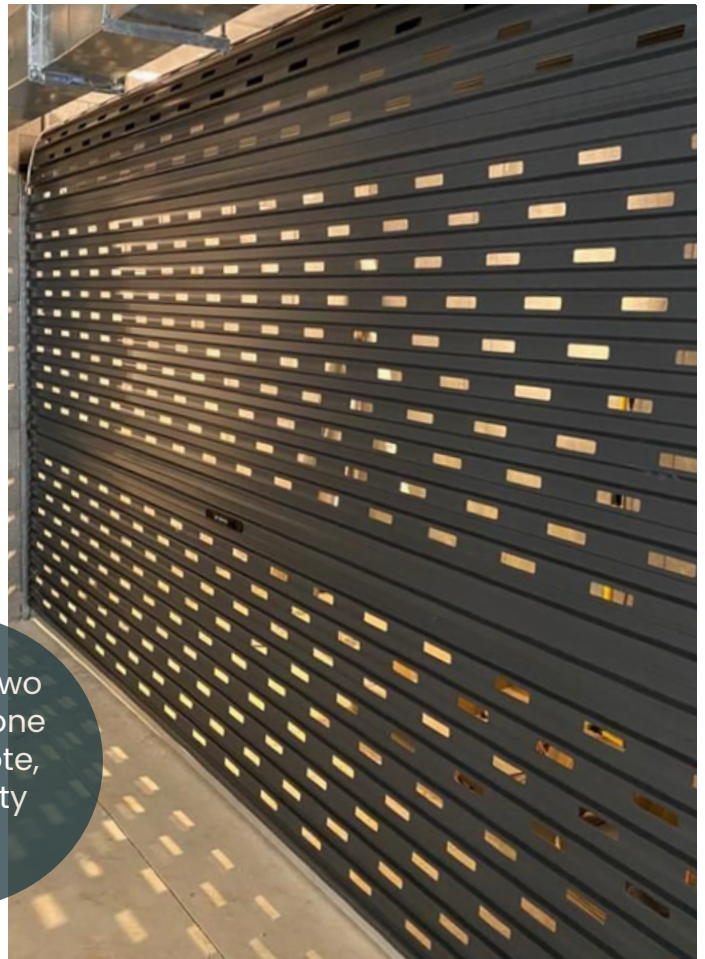

The perforation percentage indicates how much of the door surface is open, allowing for airflow and visibility.

Higher percentages provide increased ventilation and visibility.

Lower percentages offer more privacy and protection from dust, rain, and enhanced interior discretion.

Includes two
remotes, one
wall remote,
and safety
beams

All models are available in customizable sizes and finishes to suit your project needs.
